FRAMES

AIM

To create a webpage contains links and scrolling text. The link's corresponding web pages should be displayed in a frame.

CODE

```
<Html>
<Head>
 <Title> frames </Title>
</Head>
<Body leftmargin = '5%'>

<H2 align = 'contor'> frames illustration </H2>

<Marquee style = "color: red ">
      IFRAME - TARGET FOR A LINK </marquee>

<Br>
<table width = '100%'>

<tr>
<td>
<a href=' www. w3schools.com'. target='frame'>
```

```html
                w3schools    </a>
    </td>
    <td>  <a href=' Studytonight.com' target='frame'>

            Studytonight    </a>
    </td>

    <td>
        <a  href= 'www.tutorialspoint.com'
                                target= 'frame'>

            tutorials point   </a>
    </td>
        <td>  <a href=www.javatpoint' target='frame'>

            javatpoint  </a>  </td>
    </tr>  </table>

    <iframe    width='100%'   name='frame'

            height ='50%'  style =' borders : 1px soud black'>

        </iframe>    </Body>
    </Html>
```

RESULT

The program was executed successfully.
