FORM- PASSWORD CHECK

AIM

To add password constraint to previous example such as atleast one capital letter, one special character, and number.

CODE

```html
<Html>

<Body>

<!-- All the code are same as previous
     one except following -->

<Label for='Password'>Password</label>

<input type='Password' id='Password'

onkeyup='Password_check(this.value)'

required>
```

```
<div class='text-danger' id='warning-msg'>

Password mismatch

</div>

<div class='text-danger' id='validation'>

Password must be  7-14 characters, atleast

one number, special character, capital letter.

</div>

<script>

function password_check (value)
{

    var pwd = /^(?=.*\d)(?=.*[a-z])

    (?=.*[A-Z])(?=.*[^a-zA-20-9])

    (?!.*\s).{7,14}$/;

    if (value.match(pwd))

    {
            document.getElementById('validation').

            style.display = "block";

            button-submit.disabled = true;
```

```
else
{
        document. getElementById ('validation').

        . style. display = "none";

            button_submit.disabled = false;

        }

}
```

```
</script>
</Body>
</Html>
```

RESULT

The   program   was   successfully

execited.
